

Course Overview

Our Henna Brow workshop is designed to teach you one of the most popular beauty treatments currently offered within the industry.

This is a natural alternative to other chemical dyes and is plant based making it an appealing option for colouring the brow and creating a more enhanced brow. Henna also creates a better skin stain which gives a denser, fuller brow.

This is a hands-on course and you will be working with other students, on each other as models, so you can experience henna first hand.

Course Cost:

\$495.00 (Includes kit)

Schedule

1 day course

This is a hands-on course and you will be working with other students as models so you can experience henna first hand.
